PRIMARY EXAMINER**

## **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The instant invention claims a pyrogenically prepared doped zinc oxide powder having a specific composition and size.

The closest prior art reference that relates to the claimed invention is EPO'380 cited in the European Search Report submitted in file history.

The prior art teaches that it is known in the art to make and use an electrically conductive zinc oxide with high whiteness formed by oxidizing a vapor mixture of zinc and a dopant-forming metal compound. However, the prior art does not teach or fairly suggest the composition, size and properties of the claimed powder..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to leszek b. kiliman whose telephone number is 571-272-1509. The examiner can normally be reached on M-T, 6.30-5.00.
